

Bringing your dream to reality

The thought of a complete new build can be quite daunting especially if it's the first time you are doing it. Over the past decade QPC have fine tuned our design and build process to ensure it is not only seamless and effective but also fun!

Here's what QPC Design & Build can offer you:

- Design and plans by our skilled architects
- Comprehensive pricing by our in house quantity surveyors with transparent costs
- Complete management from design, pricing, consultants, council consents, project management, building and sub trades undertaken by a dedicated project manager, keeping you well involved and informed
- A qualified team who are licensed building practitioners to carry out the work
- Dedicated and effective service from our wider team to look after your project and ensure it runs efficiently

One of our latest new build projects is this enormous 560m² home just north of Albany. A simple and elegant entranceway draws you into this seemingly understated home. It isn't until you walk through to the back of the home that you see how truly magnificent and grand in scale it actually is. The large two storey home wraps itself around the large outdoor pool and entertaining area whilst sitting nestled privately into its lush bush surroundings.

With crisp weatherboard, feature schist chimneys and immaculate landscaping the attention to detail on this home is breathtaking.

For more information about how we can help you to create your dream home take a look at our website www.qpcbuilders.co.nz or give us a call today 0800 772 266
